

Roof Accessories

with the home in mind

Немецкое качество и технологии

EUROVENT продукция производится с использованием новейших технологий и участия из лучших строительных изоляционных специалистов. Они присоединились к их более чем 20-летний опыт в проектирование, производство и распределение крыши мембраны и кровельные аксессуары для того чтобы производить и предоставить вам лучшие товары доступно.

Вот почему Eurovent бренд приносит последней достижения и новаторские решения в крыше Строительно -изоляционные расчётов. В производстве процесс Eurovent продукции лучших гав используются материалы доступны на рынке. Строгий инспекции позволяет производить качественные, безопасное, эффективное и прочное продукты.

Кровельщики и инвесторы ценят Eurovent для его высокое качество. Приобретая Евровент продукты вы выбираете здоровую атмосферу в вашем доме и мира для вас и вашей семьи.

Хребет

Хребет лент и аксессуары, чтобы дать надлежащее вентилирование области хребта и защищать от проникновения снег, дождь, влаги и пыли.

РОЛЛ СТАНДАРТ

Хребет ленты, изготовленные из профи led алюминиевого листа, технические ткани и самоклеящиеся Бутлиловая лента. Применяется как уплотнение и вентилиации элемент. Защищает кровлю покрытие против влаги и пыли при обеспечении надлежащей вентилиации.

Размер рулона: 240 мм; 310 мм x 5 гм
180 мм - 400 мм * x 5 гм
Цвет RAL: стена красного 8004, коричневый 8019, черный 9005, антрацит 7021, Каштан 8015, Черри 3013, медно-Cu *
Картон: 4 рулона

ROLL GEO

Хребет ленты, изготовленные из профи led алюминиевого листа, Геотекстиль и самоклеящиеся Бутлиловая лента. Применяется как герметизация и вентилиации элемент. Защищает кровлю покрытие против влаги и пыли при обеспечении надлежащей вентилиации.

Размер рулона: 240 мм; 310 мм x 5 гм
180 мм - 400 мм * x 5 гм
Цвет RAL: стена красного 8004, коричневый 8019, черный 9005, антрацит 7021, Каштан 8015, Черри 3013, медно-Cu *
Картон: 4 рулона

ROLL СУПЕР

Хребет ленты, изготовленные из профи led алюминиевого листа, двухслойной нетканой и самоклеящиеся Бутлиловая лента. Применяется в качестве уплотнительных и вентилиации элемент. Защищает покрытие крыши от влаги и пыли во время обеспечение надлежащей вентилиации.

Размер рулона: 310 мм x 5 гм
180 мм - 400 мм * x 5 гм
Цвет RAL: стена красного 8004, коричневый 8019, черный 9005, антрацит 7021, каштан 8015, Черри 3013, медно-Cu *
Картон: 4 рулона

ROLL METAL

Ridge tape made of partly perforated profiled aluminum sheet and self-adhesive butyl tape. Applied as sealing and ventilating element. Protects the roof covering against moisture and dust while ensuring proper ventilation.

Roll size:	310 mm x 5 m 180 mm - 450 mm* x 5 m
RAL colour:	wall red 8004 , brown 8019, black 9005, anthracite 7021, chestnut 8015, cherry 3013, copper – Cu*
Cardboard:	4 rolls

DECK

Ridge deck manufactured from plastic. The product finds application as ventilating and finishing element for ridge roof tiles. Its special evenly-arranged openings ensure efficient ventilation of the roof ridge area.

Size:	50 mm x 120 mm
RAL colour:	wall red 8004, brown 8019, black 9005
Cardboard:	25 pcs.

UNI GRIP

Ridge tile grip made of aluminum sheet and coated with weatherproof polyester paint. Applied for fast and reliable installation of ridge tiles on the ridge and hip battens. The grip is mounted with the use of screws.

RAL colour:	wall red 8004, brown 8019, black 9005, anthracite 7021, chestnut 8015, cherry 3013
Cardboard:	100 pcs.

CANTILEVER G

Ridge batten bracket consisting of steel grip and nail. The product finds application as mounting element for ridge tiles on the ridge batten of ventilated pitched roofs. Made of galvanized steel.

Grip width:	40 mm; 50 mm
Nail length:	180 mm; 210 mm, 230 mm, 260 mm
Cardboard:	100 pcs.

CANTILEVER B

Ridge batten bracket consisting of steel grip and bracket. The product finds application as mounting element for ridge tiles on the ridge batten of ventilated pitched roofs. Made of galvanized steel.

Grip width:	40 mm; 50 mm
Bracket length:	210 mm
Cardboard:	100 pcs.

CANTILEVER L

Regulated bracket for ridge batten consisting of steel grip and bracket. The product finds application as mounting element for ridge tiles on the ridge batten of ventilated pitched roofs. Made of galvanized steel.

Grip width:	40 mm; 50 mm
Bracket length:	180 - 225 mm
Cardboard:	100 pcs.

* against order

BITUVENT

Ridge ventilating element manufactured from plastic. Finds application as sealing and ventilating element when installing bitumen shingles. Protects the roof covering against moisture and dust while ensuring proper ventilation.

Size: 290 mm x 1000 mm
RAL colour: black 9005
Cardboard: 10 pcs.

AIR FLEX S

Ridge ventilating element made of PVC with ventilation openings and polymer bristles. Finds application as sealing and ventilating element. Protects the roof covering against moisture and dust while ensuring proper ventilation.

Profile height: 75 mm x 1000 mm
RAL colour: wall red 8004, brown 8019, black 9005, anthracite 7021, chestnut 8015, cherry 3013
Cardboard: 32 pcs.

Chimney

Chimney flashing products for durable and effective flashing around chimney, bay and roof windows as well as joining the roof and wall.

FLEX STANDARD

Chimney fl ashing made of crosswise profiled aluminum sheet and butyl adhesive. Applied in roof works, especially in the areas around chimneys, bay windows and roof windows. Suitable also for joining surfaces of roof and wall.

Roll size: 300 mm x 5 m;
50 mm - 450 mm* x 5 m
RAL colour: wall red 8004 , brown 8019, black 9005, anthracite 7021,
chestnut 8015, cherry 3013, copper – Cu*
Cardboard: 1 roll

FLEX 3D

Chimney fl ashing made of aluminum sheet profiled into a three-dimensional pattern and butyl adhesive. Applied in roof works, especially in the areas around chimneys, bay windows and roof windows. Suitable also for joining surfaces of roof and wall.

Roll size: 300 mm x 5 m;
50 mm - 450 mm* x 5 m
RAL colour: wall red 8004 , brown 8019, black 9005, anthracite 7021,
chestnut 8015, cherry 3013, copper – Cu*
Cardboard: 1 roll

FLEX STANDARD PB

Chimney fl ashing made of crosswise profiled lead tape and butyl adhesive. Applied in roof works, especially in the areas around chimneys, bay windows and roof windows. Suitable also for joining surfaces of roof and wall.

Roll size: 300 mm x 5 m
RAL colour: wall red 8004 , brown 8019, black 9005,
anthracite 7021, chestnut 8015
Cardboard: 1 roll

FLEX FLAT PB

Chimney fl ashing made of flat lead tape and butyl adhesive. Applied in roof works, especially in the areas around chimneys, bay windows and roof windows. Suitable also for joining surfaces of roof and wall.

Roll size: 300 mm x 5 m
RAL colour: wall red 8004, brown 8019, black 9005,
anthracite 7021, chestnut 8015
Cardboard: 1 roll

FLEXBIT

Roofing tape made of aluminum foil and bitumen adhesive. Applied for joining and sealing roof treatments in the areas of chimneys, valleys, roof windows, firewalls, skylights and ventilating elements. Suitable for both, flat and pitched roofs.

Roll size: 100 mm; 150 mm; 300 mm x 10 m
RAL colour: wall red 8004, brown 8019, lead 9007,
dark red 3004, aluminum 9006
Cardboard: 3 rolls; 2 rolls; 1 roll

FLEX LINE

Aluminum chimney strip. Finds application as finishing element in the areas where chimney fl ashing is used. The product enables proper sealing of the critical spots around chimney and ensures esthetic finishing of the roof works.

Roll size: 80 mm x 2 m
RAL colour: wall red 8004 , brown 8019, black 9005,
anthracite 7021, chestnut 8015, cherry 3011, copper – Cu*
Cardboard: 20 pcs.

Clips

Clips for reliable and effective installation of cement and ceramic roof tiles to ensure a safe roof for many years.

CLIP NORD-2

Roof tile clip made of hook-profiled steel wire. The clip is tipped with rectangular plate crafted from galvanized steel strip. The product can be applied with numerous types of ceramic and cement tiles.

Material: galvanized steel
Size: 65 mm x 20 mm x 15 mm
Cardboard: 250 pcs.

CLIP NORD-3

Roof tile clip made of hook-profiled steel wire. The clip is tipped with half-round plate crafted from galvanized steel strip. The product finds application in numerous types of ceramic and cement tiles.

Material: galvanized steel
Size: 65 mm x 20 mm x 15 mm
Cardboard: 250 pcs.

CLIP U

Roof tile clip made of galvanized and profiled steel wire. The product can be applied with all types of cement tiles and is installed by sticking its sharp end into the roof structure and fastening its other end to the edge of the roof tile.

Material: galvanized steel
Size: 45 mm x 33 mm x 25 mm (small)
55 mm x 40 mm x 40 mm (large)
Cardboard: 100 pcs.

CLIP J

Roof tile clip made of J-shaped galvanized steel wire. The product is designed for ceramic tiles. It is installed by fastening one of its ends to the side-lock of the roof tile or both, side and top-lock, and its other end to the batten

.....

Material:	galvanized steel
Size:	190 mm x 50 mm x 30 mm
	200 mm x 40 mm x 30 mm
Cardboard:	210 mm x 30 mm x 30 mm
	250 pcs.

CLIP J2

Double side-clip made of J-shaped galvanized steel wire. The product is designed for ceramic tiles. It is installed by fastening its tips to the side-locks of two neighbouring roof tiles, the upper and the lower one.

.....

Material:	galvanized steel
Size:	300 mm x 15 mm x 15 mm
	320 mm x 15 mm x 15 mm
Cardboard:	100 pcs.

CLIP DC-6

Universal roof tile clip made of galvanized steel wire. The product is designed for ceramic tiles. It is installed by fastening one of its ends to the side-lock or both, side and top-lock, and its other end to the batten.

.....

Material:	galvanized steel
Size:	200 mm x 40 mm x 40 mm
Cardboard:	250 pcs.

CLIP DC-9

Roof tile side-clip made of galvanized steel wire. The product is designed for concrete and ceramic tiles. It is installed by sticking its sharp end into the roof structure and fastening its profiled end to the side-lock of the roof tile.

.....

Material:	galvanized steel
Size:	75 mm x 65 mm; 65 mm x 65 mm*
	85 mm x 85 mm*; 75 mm x 48 mm*
Cardboard:	100 pcs.

CLIP BIBER

Roof tile side-clip made of galvanized steel tape. The product is designed for beaver-tail roof tiles. It is installed by fastening one of its ends to the batten and the other end to the side edge of the roof tile.

.....

Material:	galvanized steel
Size:	40 mm x 80 mm x 50 mm
Cardboard:	100 pcs.

CLIP C

Roof tile clip for use with cut roof tiles. Made of stainless steel bracket and steel wire. It is installed by fixing the steel bracket to the edge of the tile and fastening the steel wire to the nail in the roof structure, mostly in the batten.

.....

Material:	stainless steel
Size:	20 mm x 30 mm x 400 mm
Cardboard:	100 pcs.

Eaves

Ventilation elements for protecting eaves in pitched roofs and ventilation intakes in facades against penetration of birds, rodents and leaves.

COMB

Eaves comb manufactured from high quality plastic. The product ensures proper ventilation of the eaves area in the pitched roof while protecting it against penetration of birds, rodents, insects and leaves.

Size: 60 mm; 90 mm; 110 mm x 1 mm
 RAL colour: wall red 8004 , brown 8019, black 9005
 Cardboard: 200 pcs; 150 pcs; 150 pcs.

COMB VENTI

Eaves comb with a ventilating grate. Manufactured from high quality plastic. The product ensures proper ventilation of the eaves area in the pitched roof while protecting it against penetration of birds, rodents, insects and leaves.

Size: 85 mm x 1 mm
 RAL colour: wall red 8004 , brown 8019, black 9005, cherry 3013
 Cardboard: 50 pcs.

GRATE VENTI

Ventilating eaves grate. Manufactured from high quality plastic. The product ensures proper ventilation of the eaves area in the pitched roof while protecting it against penetration of birds, rodents, insects and leaves.

Size: 32 mm x 1 mm
 RAL colour: wall red 8004 , brown 8019, black 9005,
 Cardboard: 100 pcs.

EAVES GRATE

Eaves grate manufactured from high quality plastic. Applied to protect the eaves area against penetration of birds, rodents, insects and leaves. The product is also suitable for use as protecting element for ventilation intakes in building facades.

Size: 50 mm; 80 mm; 100 mm, 150 mm x 5 m
 BOX - 80 mm; 100 mm x 60 m

RAL colour: wall red 8004 , brown 8019, black 9005, white 9003*

Cardboard: 50 mm – 48 rolls; other – 24 rolls;
 BOX – 1 roll

EAVES PLANK

Overgutter plank made of aluminum sheet and coated with polyester paint. Applied as reinforcement and protection of the eaves area and its water-drainage system. The product is wrapped in protective polyethylene foil removable before application.

Size: 70 mm x 120 mm x 2 m

RAL colour: wall red 8004 , brown 8019, black 9005, anthracite 7021, chestnut 8015, cherry 3011

Cardboard: 20 pcs.

* against order

Sealing tapes

Adhesive tapes dedicated to the roofi ng area for installing and sealing roof membranes, vapour barriers and other polymer-based construction products.

TOPBAND

Single-sided tape made of polypropylene nonwoven and acrylic dispersion adhesive. The product finds application in joining and repairing roof membranes, wind barriers as well as other polypropylene-based products.

Size: 50 mm x 25 mm
Application temperature: > 5°C
Cardboard: 12 rolls

TOPBAND FASSADE

Single-sided tape made of polypropylene nonwoven coated with polyurethane on one side and acrylic dispersion adhesive on the other. The product finds application in joining and sealing FASSADE wind barrier as well as other polypropylene-based products.

Size: 50 mm x 25 mm
Application temperature: > 5°C
Cardboard: 12 rolls

UNO

Single-sided tape made of PE foil reinforced with polyester fibres and acrylic dispersion adhesive. The product finds application in joining and repairing plastic-based roof membranes and foils as well as fastening them to wood and metal elements.

Size: 50 mm x 25 mm
60 mm x 25 mm
Application temperature: > 5°C
Cardboard: 12 rolls

DUO

Double-sided tape made of polyester mesh coated on both sides with a special acrylic dispersion adhesive. The product finds application in joining vapour barriers, roof membranes and foils as well as other plastic-based products.

Size: 20 mm x 25 mm
20 mm x 50 mm
40 mm x 50 mm
Application temperature: > 5°C
Cardboard: 12 rolls

BUTYL

Double-sided tape with a separating film made of silicone paper. A solvent-free product based on butyl. The tape finds application in joining and sealing vapour barriers, roof and foundation foils as well as other plastic-based products.

Size: 15 mm x 25 mm
Application temperature: > 5°C
Cardboard: 14 rolls

PUR

Single-sided tape made of closed-cell structure polyethylene foam and coated with acrylic dispersion adhesive. The product finds application in sealing the insulations of roof and building constructions.

Size: 30 mm; 40 mm; 50 mm;
60 mm; 70 mm; 90 mm;
95 mm x 30 mm
Application temperature: > 5°C
Cardboard: 4 rolls

ALUFIX

Single-sided metalized tape made of PE foil coated with a special acrylic dispersion adhesive. The product finds application in joining and repairing aluminum-based vapour barriers. Suitable also for membranes and foils with metalized surface.

Size: 50 mm; 75 mm x 50 mm
 Application temperature: > 5°C
 Cardboard: 36 rolls; 24 rolls

COMPRI

Single-sided expandable tape made of flexible polyurethane foam soaked with modified acrylic. The product finds application in sealing voids in roof and building constructions, especially in the areas of ridge, valley and roof windows.

Size: 15 mm x 4 mm x 8 mm
 10 mm x 5 mm x 8 mm
 Application temperature: > 5°C
 Cardboard: 12 rolls

Valley

A complete system for roof valleys enables durable finishing of neighbouring roof slopes and secures proper water drainage.

VALLEY

Roof valley made of profiled aluminum sheet and coated with polyester paint. Available with crosswise or longitudinal corrugation. The product finds application in finishing the area between the roof slopes and ensures proper water drainage.

Size: 500 mm x 2 m
 RAL colour: wall red 8004, brown 8019, black 9005, anthracite 7021, chestnut 8015, cherry 3011
 Cardboard: 10 pcs.

VALLEY CLIP

Roof valley clip made of aluminum sheet and coated with polyester paint. The product finds application as element for fastening the roof valley to the structure of the roof. Enables precise installation without additional drilling.

RAL colour: wall red 8004, brown 8019, black 9005, anthracite 7021, chestnut 8015, cherry 3011
 Cardboard: 50 pcs.

WEDGE

Valley wedge made of polyurethane foam with a layer of adhesive on one side. The product is used for sealing the area between the roof valley and the slope of the roof. Perfectly adjusts to the shape of the covering.

Size: 60 mm x 1 m
 RAL colour: wall red 8004, brown 8019, anthracite 7021
 Cardboard: 200 szt.

Ventilation and protection

Products for additional protection of the roof.
 Ventilating system for the roof and attic to improve performance of the covering.

GUTTER PROTECT

Protective mesh manufactured from high quality plastic. The product is applied to protect the gutters, both metal and plastic, against leaves and other impurities. Its side hooks allow for a fast and reliable installation.

Size: 175 mm x 600 mm
RAL colour: black 9005
Cardboard: 5 pcs.

ANTIBIRD

Protective element made of polycarbonate base and flexible steel spikes. The product prevents birds from sitting and nesting on roofs, facades, cornices, window panes and other parts of the buildings.

Size: 60 mm x 335 mm x 110 mm
RAL colour: aluminum 9006
Cardboard: 300 pcs.

FLEXOS

Flexible air duct made of high quality plastic. The product is applied as connecting element between the ventilating chimney and the attic. Withdraws moisture from usable and non-usable attics, kitchens and bathroom outside the roof.

Diameter: 110 mm
RAL colour: black 9005
Cardboard: 5 pcs.

RING

Pipe reduction for fl at air vent. It is manufactured from high quality plastic and applied as connecting element between the flexible duct and the venting pipe or the roof base.

Size: 110 mm / 150mm; 100 mm / 110 mm
RAL colour: black 9005
Cardboard: 50 pcs. 80 pcs.

VENTOS

Ventilating chimney for use on bitumen shingles and metal roofing. Made of high quality plastic and suitable for roof slopes ranging between 5 and 45 degrees. Withdraws moisture from usable and non-usable attics, kitchens and bathrooms.

Set: base plate + chimney + screws
RAL colour: wall red 8004, brown 8019, black 9005, anthracite 7021, chestnut 8017, cherry 3013, green 6020, graphite 7024, grey 7046
Type: METAL N25, METAL W35, METAL X45, BITU U, BITU O
list of producers – page 29
Cardboard: 1 set

VENTOS PLUS

Ventilating chimney for use on cement and ceramic roof tiles. Made of high quality plastic and suitable for roof slopes ranging between 5 and 45 degrees. Withdraws moisture from usable and non-usable attics, kitchens and bathrooms.

Set: base plate + chimney + screws
RAL colour: wall red 8004, brown 8019, black 9005, anthracite 7021, chestnut 8017, cherry 3013, green 6020, graphite 7024, grey 7046
GL – high gloss version available against order;
Type: ES, C, S, R, EX*, G*, BS*, N*, NK*
list of producers – page 30
Cardboard: 1 set

VENTOS FLAT

Flat air vent for use on cement and ceramic roof tiles, bitumen shingles and metal roofing. Manufactured from high quality plastic and suitable for roof slopes ranging between 5 and 45 degrees. Withdraws moisture from the roof area.

Set: air vent + screws
 RAL colour: wall red 8004, brown 8019, black 9005, anthracite 7021, chestnut 8017, cherry 3013, green 6020, graphite 7024, grey 7046
 Type: METAL N25; METAL W35; METAL X45; BITU U; BITU O; ES, C, S, R, EX*, G*, BS*, N*, NK* - list of producers – page 30
 Cardboard: 1 set

SATTOS

Antenna adapter for use on all types of roof covering. Manufactured from high quality plastic and tipped with a rubber cap. The product is designed for 15-65 mm diameter masts and suitable for use on roof slopes ranging between 5 and 45 degrees.

Set: base plate + rubber cap + metal ring + screws
 RAL colour: wall red 8004, brown 8019, black 9005, anthracite 7021, chestnut 8017, cherry 3013, green 6020, graphite 7024, grey 7046
 Type: METAL N25; METAL W35; METAL X45; BITU U; BITU O; ES, C, S, R, EX*, G*, BS*, N*, NK* - list of producers – page 30
 Cardboard: 1 set

SOLAROS

Solar cable adapter for use with the majority of roof coverings. The product enables to easily draw the 10-60 mm diameter cables through the roof slope. Suitable for use on roof slopes ranging between 5 and 45 degrees.

Set: adapter + screw
 RAL colour: wall red 8004, brown 8019, black 9005, anthracite 7021, chestnut 8017, cherry 3013, green 6020, graphite 7024, grey 7046
 Type: METAL N25*; METAL W35*; METAL X45*; BITU U*; BITU O*; ES*, C*, S*, R*, EX*, G*, BS*, N*, NK* - list of producers – p. 30
 Cardboard: 1 set

* available from 07.2012

Snow protection

Snow protection system to prevent the excessive amounts of snow from sliding down the roof slope. Fastening elements for easy installation on any roof covering.

FIX BIBER

Adapter for snow stopping grate. Manufactured from galvanized steel and applied as mounting element for fi xing the snow-stopping grate on beaver-tail roof tiles. Suitable for use on roof slopes ranging between 15 and 60 degrees.

.....

RAL colour: galvanized steel, wall red 8004, brown 8017, black 9005, green 6020, anthracite 7016, chestnut 3009, cherry 3004, graphite 7024

Package: 10 pcs.

FIX METAL

Adapter for snow stopping grate. Manufactured from galvanized steel and applied as mounting element for fi xing the snow-stopping grate on type 350, 400, 420 and 460 metal roofi ng. Suitable for use on roof slopes ranging between 15 and 60 degrees.

.....

Type: METAL 350; METAL 400; METAL 420; METAL 460

RAL colour: galvanized steel, wall red 8004, brown 8017, black 9005, green 6020, anthracite 7016, chestnut 3009, cherry 3004, graphite 7024

Package: 10 pcs.

FIX METAL FLAT

Adapter for snow stopping grate. Manufactured from galvanized steel and applied as mounting element for fi xing the snow-stopping grate on fl at metal roofi ng. Especially recommended for standing-seam roof covering.

.....

RAL colour: galvanized steel, wall red 8004, brown 8017, black 9005, green 6020, anthracite 7016, chestnut 3009, cherry 3004, graphite 7024

Package: 10 pcs.

FIX TUBE DB-DC

Adapter for snow-stopping pipe. Manufactured from galvanized steel and applied as mounting element for fi xing the snow-stopping pipe on cement and ceramic roof tiles. Suitable for use on roof slopes ranging between 15 and 60 degrees.

- RAL colour: galvanized steel, wall red 8004, brown 8017, black 9005, green 6020, anthracite 7016, chestnut 3009, cherry 3004, graphite 7024
- Package: 10 pcs.

FIX TUBE BIBER

Adapter for snow-stopping pipe. Manufactured from galvanized steel and applied as mounting element for fi xing the snow-stopping pipe on beaver-tail roof tiles. Suitable for use on roof slopes ranging between 15 and 60 degrees.

- RAL colour: galvanized steel, wall red 8004, brown 8017, black 9005, green 6020, anthracite 7016, chestnut 3009, cherry 3004, graphite 7024
- Package: 10 pcs.

FIX TUBE METAL

Adapter for snow-stopping pipe. Manufactured from galvanized steel and applied as mounting element for fi xing the snow-stopping pipe on type 350, 400, 420 and 460 metal roofi ng. Suitable for use on roof slopes ranging between 15 and 60 degrees.

- Type: METAL 350, METAL 400, METAL 420, METAL 460
- RAL colour: galvanized steel, wall red 8004, brown 8017, black 9005, green 6020, anthracite 7016, chestnut 3009, cherry 3004, graphite 7024
- Package: 10 pcs.

FIX TUBE METAL FLAT

Adapter for snow-stopping pipe. Made of galvanized steel and applied as mounting element for fixing the snow-stopping pipe on flat metal roofing, especially standing-seam roof coverings. Available in copper, aluminum or stainless steel against order.

.....

RAL colour: galvanized steel, wall red 8004, brown 8017, black 9005,
green 6020, anthracite 7016, chestnut 3009,
cherry 3004, graphite 7024
Package: 10 pcs.

CLIP TUBE

Clip for snow-stopping pipe. Manufactured from galvanized steel and applied for joining two snow-stopping pipes into a line. Available in copper, aluminum and stainless steel against order.

.....

RAL colour: galvanized steel, wall red 8004, brown 8017, black 9005,
green 6020, anthracite 7016, chestnut 3009,
cherry 3004, graphite 7024
Package: 2 pcs.

BLOCK

Grip for snow-stopping block. Manufactured from galvanized steel and applied as fastening element for fixing the wooden snow-stopping block on the roof. Suitable for use on roof slopes ranging between 15 and 60 degrees.

.....

RAL colour: galvanized steel, wall red 8004, brown 8017, black 9005,
green 6020, anthracite 7016, chestnut 3009,
cherry 3004, graphite 7024
Package: 10 pcs.

SNOWSTOP

Snow stopper manufactured from galvanized steel. The product is used for splitting large amounts of snow as they slide down the roof towards the gutters. Available in several models dedicated for different types of roof coverings.

.....

Height: 65 mm
RAL colour: wall red 8004, brown 8017; anthracite 7016;
chestnut 3009
Package: 10 pcs.

Roof safety

Roof safety system for an easy and safe access to the roof and chimney area. Variety of adapters enables installation on any roof covering.

PLATFORM

Platform for performing roof maintenance works. Made of galvanized steel and covered with anti-slip corrugations to ensure safe foot traffic in the chimney area. Suitable for use on roof slopes ranging between 15 and 60 degrees.

Length: 0,4 m; 0,6 m; 0,8 m; 1,0 m; 1,2 m; 1,5 m; 2,0 m; 3,0 m*

RAL colour: galvanized steel, wall red 8004, brown 8017, black 9005, green 6020, anthracite 7016, chestnut 3009, cherry 3004, graphite 7024

Package: 2 pcs.

STEP

Step for performing roof maintenance works. Manufactured from galvanized steel and applied as element enabling safe foot traffic in the chimney area. Fastened on the roof with the use of appropriate SUPPORT adapter.

Length: 140 mm x 256 mm

RAL colour: galvanized steel, wall red 8004, brown 8017, black 9005, green 6020, anthracite 7016, chestnut 3009, cherry 3004, graphite 7024

Package: 6 pcs.

GRIP

Universal grip manufactured from galvanized steel. The product finds application as fastening element for joining the roof platform and the roof step with the adapter mounted directly on the roof covering.

RAL colour: galvanized steel, wall red 8004, brown 8017, black 9005, green 6020, anthracite 7016, chestnut 3009, cherry 3004, graphite 7024

Package: 6 pcs.

SUPPORT UNI

Adapter for step and platform grip. The product is manufactured from galvanized steel and applied as fastening element for fi xing the step and platform on the fi at roof covering.

-
- RAL colour: galvanized steel, wall red 8004, brown 8017,
black 9005, green 6020, anthracite 7016,
chestnut 3009, cherry 3004, graphite 7024
- Package: 10 pcs.

SUPPORT DB-DC

Adapter for step and platform grip. The product is manufactured from galvanized steel and applied as fastening element for fi xing the step and platform on profi led roof coverings made of cement and ceramic tiles.

-
- RAL colour: galvanized steel, wall red 8004, brown 8017,
black 9005, green 6020, anthracite 7016,
chestnut 3009, cherry 3004, graphite 7024
- Package: 10 pcs.

SUPPORT WEST DB-DC

One-piece adapter for step and platform grip. The product is manufactured from galvanized steel and enables fi xing the step and platform grip on concrete and ceramic roof tiles.

-
- RAL colour: galvanized steel, wall red 8004, brown 8017,
black 9005, green 6020, anthracite 7016,
chestnut 3009, cherry 3004, graphite 7024
- Package: 10 pcs.

SUPPORT METAL FLAT

Adapter for step and platform grip. The product is manufactured from galvanized steel and applied as fastening element for fixing the step and platform grip on standing-seam flat metal roofing.

RAL colour: galvanized steel, wall red 8004, brown 8017, black 9005, green 6020, anthracite 7016, chestnut 3009, cherry 3004, graphite 7024

Package: 10 pcs.

SUPPORT WALL

Adapter for step and platform grip. The product is manufactured from galvanized steel and applied as fastening element for fixing the step and platform grip directly to the wall or chimney.

RAL colour: galvanized steel, wall red 8004, brown 8017, black 9005, green 6020, anthracite 7016, chestnut 3009, cherry 3004, graphite 7024

Package: 10 pcs.

LINK

Roof platform link. The product is manufactured from galvanized steel and applied as fastening element for joining two roof platforms into a line. The set contains mounting screws.

Length: 180 mm

RAL colour: galvanized steel, wall red 8004, brown 8017, black 9005, green 6020, anthracite 7016, chestnut 3009, cherry 3004, graphite 7024

Package: 10 pcs.
